

THE \$50,000 CHALLENGE

Challenge Details

Education Funding Solutions, LLC (EFS) agrees to provide a FREE college funding/financing plan if our analysis of the prospective EFS Client Family (the Challenger)'s fully-completed, Confidential Financial Aid Questionnaire analysis indicates that we cannot save the Challenger \$50,000 or more on funding college versus the Challenger's current college funding plan or versus the Challenger's current FAFSA/CSS Profile form that is on file with the Department of Education or The College Board.

If the analysis indicates that EFS can save the Challenger \$49,999 or less on their out-of-pocket cost to finance a college education, EFS will show a fully detailed college funding/financing plan during a one hour complimentary meeting to explain Plan details. If the Challenger implements the Plan, EFS will deliver to Challenger the Plan details.

Because EFS' college funding/financing Plans are so effective, EFS has numerous competitors seeking to learn how we provide the level of benefit we do. Our proprietary process is confidential and therefore, if the Challenger elects not to implement the Plan strategies within ten (10) business days of the Plan presentation, EFS reserves the right to withdraw its offer of a free college funding/financing Plan.

The detailed Confidential Financial Aid Analysis (\$295 value) that illustrates:

- (a) Expected Family Contribution
- (b) Family anticipated financial aid award and out-of-pocket college cost
- (c) Gift-aid (grant money that does not need to be repaid) analysis
- (d) ALL college finance options, including the revolutionary *edCelerator*™ System
- (e) Graduation rates (most colleges hide) for the Challenger's target colleges

is always **FREE** and the Challenger is welcome to keep a copy of it for future reference.

College Preparation, Planning and Paying is a complicated, often counter-intuitive, puzzle that Education Funding Solutions, LLC has been helping families solve for ten years. Talk to us; we can help.
